

Engineering Discipline Manager – Roadway Drainage / Hydraulics

About Us

Aulick Engineering is a woman-owned small business that provides engineering design and construction management services for transportation projects. Aulick provides quality professional services to airports, DOTs, municipalities, engineering firms, and commercial developers around the southeast.

Aulick Engineering offers team members the opportunity to grow at their own pace without being boxed into a typical role. Our closely-knit team will work directly with you to provide a challenging, rewarding, and hands-on experience in all aspects of our work. Team members are given the opportunity to work on numerous aspects of projects where they can be involved from concept design to construction. Aulick Engineering strives to provide a workplace where hard work is recognized and rewarded while still encouraging a healthy work-life balance. Our team members are kind, resourceful, respectful, and trustworthy and we are looking for others who share those values.

Job Description

We are currently looking for an Engineering Discipline Manager to work in our Atlanta, Columbia, Charleston, Greenville, or Durham office. The ideal candidate should possess a desire to work for a fast-paced, growing, “never a dull moment” business and meet the qualifications listed below.

Qualifications

- Bachelor of Science in Civil Engineering
- Professional Engineer license required
- Minimum of fifteen (15) years of experience in a related field
- Prior people management experience, including teams of multiple engineers is required.
- Experience preparing cost proposals and managing project budgets is required.
- Plan production experience and knowledge of Microstation is required
- Knowledge of HEC-RAS, StormCAD, Geopak Drainage, OpenRoads, HY8, and/or CivilStorm is preferred
- Experience with project management and project accounting required, including a general understanding of rate development and overhead as it relates to project setup, management, and invoicing. Experience in Deltek products a plus.
- Design-build experience a plus
- Proficient in DOT requirements and procedures, specifically hydraulics, drainage, stormwater, and/or erosion control components. ***Options available for roadway drainage and hydraulics to be two separate positions in Georgia.***
- GDOT and/or SCDOT/NCDOT experience preferred
- Proficient in Microsoft Office Suite

Responsibilities

- Applicant will work on projects and manage the teams that focus on drainage design, culvert/bridge hydraulic design, stormwater design, and erosion control plan development for roadway projects.
- Management and training of Project Managers/Team Leads and other technical roles within the discipline
- Management of current and future workload within the discipline, including marketing efforts to help secure work for the discipline.
- Responsible for meeting monthly billing goals within discipline
- Prepare project approaches, cost proposals, and contracting documents
- Maintain day-to-day client relationships and attend scoping and project meetings as appropriate
-

Benefits

- Medical insurance
- Vision and dental insurance
- Healthcare and dependent care flexible spending accounts (HSA and FSA)
- Employer-paid short-term and long-term disability coverage
- Employer-paid life insurance and AD&D insurance
- 401k program with company match
- Discretionary time off
- Ten (10) paid holidays
- Fitness membership reimbursement
- Flexible hours and work-from-home days
- Company-provided equipment, including laptop and cell phone

Equal Opportunity Employer

Aulick Engineering is an Equal Employment Opportunity (EEO) employer and welcomes all qualified applicants. Applicants will receive fair and impartial consideration without regard to race, sex, religion, national origin, age, sexual orientation, disability, veteran status, genetic data, or other legally protected status.
